Sustainability

All Asset Logistics is committed to becoming a sustainable company. The reduction of our carbon footprint is our key focus in achieving this goal.

Our Commitment

We commit to remaining carbon neutral in our transport operations in 2011- 2013. Through our AIM GREEN program, our goals will be:

- Zero Carbon
- Sustainable Transport
- Zero Waste
- Supporting the local economy
- Fostering best of class sustainable business practices through innovation and leadership.

Our Actions

We will achieve our goals by implementing the following AIM GREEN initiatives:

- Purchasing carbon offset credits to remain carbon neutral now and into the future
- Utilising carbon efficient modes of transport, tyre technology and vehicle optimisation
- Ensuring we reduce, reuse and recycle
- Employing local staff and establishing local business relationships

- Supporting a healthy, balanced and sustainable life style for our business, staff and community

Our Future

- AAL will report on our environmental commitments on an annual basis
- AAL will exploit the environmental benefits of new-generation trucking technology in its new fleet from 2016 and onwards
- AAL's future investment in land, tree growth generation and the accumulation of carbon credit will ensure an exciting and green future for the company.

We will truly succeed when we achieve mission AIM GREEN and this is valued by our people, our customers and the communities in which we operate.

Michael Grubb
Managing Director
All Asset Logistics.
